

Can overseas visitors collect from the UK and not pay VAT?

You can collect your bike from us here but your invoice will include the 20% VAT element.

You can claim this VAT back under the VAT retail Scheme by filling out a VAT refund document here when you collect your bike. You **must** provide us with a valid passport, identity card or a driving licence as proof that your home is outside of the EU.

You then need to produce this document together with your receipt to customs as you exit the UK for a final destination outside the EU. This must be done “by the last day of the third month following that in which the goods were purchased”.

You then need to send the form back to us. We advise that you photocopy the form and keep a copy for yourself. **DO NOT** leave the form with customs as sometimes they go missing and then you would not be able to claim back the VAT.

Only upon our receipt of your stamped form, are we then able to refund you the VAT.
