

Assembling an FSA Headset correctly. *Thorn Cycles Ltd Rev 1.0 24/1/12*

First make sure you have all the parts below:

Starting with the lower headset cup make sure the cup is clean and free from any sticky tape, dust or card shavings

Then insert the thicker of the two cartridge bearings

Then tuck the black rubber/plastic shield into the groove in the lower cup, this will hold the bearing in

With the upper headset cup make sure the cup is clean and free from any sticky tape, dust or card shavings

Then insert the thinner of the two cartridge bearings

Then fit the gold compression washer

Then the top cap

Make sure the fork has a crown race fitted as below:

You can then slide the forks in and you're finished
